

Missouri Sovereignty Project

“The powers...are reserved to the States respectively, or to the people.” – the 10th

Mission

To “institutionalize” the U.S. Constitution’s 10th Amendment into Missouri’s populist and political fabrics so her citizens and legislators can work together to render ineffective, by legitimate means, any law enacted by the federal government that violates or suppresses Missourians’ “...unalienable Rights that among these are Life, Liberty and pursuit of Happiness.”
